

UTAX GovPack: TRUE GOVERNANCE OF BUDGETS AND DOCUMENT OUTPUT

Budget and environmental impact savings with the UTAX GovPack

Government departments, agencies or companies that work with government contacts need to manage budgets and meet environmental and carbon footprint targets. With the UTAX GovPack, we have a suite of products and services that can be tailored to work within government frameworks and guidelines.

Cost and carbon footprint controls... Under new Management

Within the constraints of Civil Service and Contractors guidelines, software needs to be cost effective and functional. Budget constraints mean that cost savings need to be quantifiable and measurable, the UTAX GovPack does this by incorporating hardware, software and professional services in a way that ensures these are met. Environmental printing policies can be introduced and enforced [if required] to ensure compliance.

Keep your budgets on a tight leash

The UTAX GovPack can provide a range of market leading software and services that work together to bring Government, Civil Service and Contractors easy to use, functional and cost effective solutions that work across Education, Healthcare, local and national Government agencies.

BUDGETS AND BILLING

- External and internal departmental billing and reporting.
- Client or project billing codes.
- Secure Printing and Scanning features.
- Environmental impact savings using rules based printing.

AUTHENTICATION IS THE KEY

- Only users that are given access can print and scan using the software included in the GovPack. Pin Codes / Swipe Card / login information are options with a second level PIN if required.

'NO-LEAK' SECURITY FEATURES

- Documents can be stored centrally and encrypted to be released at any device on demand.
- Unprinted documents can be deleted after a time limit – preserving security.
- Scanning can be directed to nominated systems, folders or by email to set addresses only.
- Data security at the device can be controlled with EAL3 level data overwrite.
- Security watermarks can be added for printing and copying.
- Biometric integration.
- Cloud / datacentre solutions.
- USB Printing options can be disabled.
