

The best thing about these systems? There's no compromising quality for speed!

Does your office descend into chaos whenever larger print jobs need to be completed and time is short? Then it's time to sit back, relax and let your new A4 b/w printers do the job! The systems can print at 45 to 60 pages per minute, guaranteeing unparalleled productivity. Even extensive jobs are processed rapidly and with optimal quality thanks to a print resolution of 1,200 x 1,200 dpi and their new processors. But it doesn't stop there!

A4

HIGHLIGHTS:

Rapid: These b/w printers work at an impressive pace, boasting a speed of 45 to 60 A4 pages per minute, a powerful processor and 512 MB RAM. The high paper capacity of up to 2,600 sheets ensures that output is not interrupted. These top performers are quite simply indispensable for any field of business that depends on high-speed printing and a high degree of productivity.

Intelligent: The clear LC display enables the user to operate the systems effortlessly and every setting can be found without having to dig through endless menus. The numeric keyboard also makes it easier to input numbers such as when entering a PIN code for private print jobs. This means you can always be sure that the printing process will only start once the correct PIN has been entered into the system and your documents will not fall into the wrong hands.

Versatile: These printers offer a multitude of ways for you to send a print job to the system. As well as the traditional way via your PC, you can also print while you're on-the-go directly from your smartphone or tablet via the Mobile Print App or via Wi-Fi*. The Wi-Fi Direct® function* is also supported by these systems. Last but not least you also have the option to quickly and easily print documents directly from your USB stick should the need arise.

Discrete: These printers also have a lot to offer when it comes to the issue of security. Using a card reader* allows the users to authenticate themselves at the system via ID card, meaning print jobs can be retrieved without having to enter a PIN manually. If an optional hard drive is installed, the Data Security Kit ensures any documents and user data saved to the hard drive is encrypted and data that is no longer needed is overwritten to make sure that it cannot be restored.

UTAX has been a trade mark for professional office technology since 1961. As the partner of a German wide dealer network and international distribution, we are specialised in the distribution and integration of printing, copying and multifunctional systems in corporate IT and public sector, amongst others. With the MDS solution UTAX smart for example, output systems can be controlled regardless of the manufacturer and the infrastructure can be optimised in line with demands. UTAX recommends the use of original UTAX accessories for trouble-free operation of your system. For recommended print media refer to the user manual. UTAX and the UTAX logo are registered trade marks of TA Triumph-Adler GmbH. All other brand names referred to are registered trade marks of the respective manufacturers.
