

Print colour like a pro

P-C3563DN · P-C4063DN · P458ci

Is the quality of your printing, in both colour and mono, important for you? Are the quality, design and security functions of the device also important to you? Then our all-round P-C3563DN, P-C4063DN and P458ci A4 colour printer series are just right for you. Thanks to a high print resolution of up to 1,200 x 1,200 dpi, faster output speeds of 35 to 45 A4 pages/minute in colour and, for the first time, an integrated HyPAS™ software interface**, the systems offer you maximum flexibility in your day-to-day work. Numerous security features that protect your data at all times rounds off the printer package.

HIGHLIGHTS:

A DYNAMIC PACKAGE: The new generation of colour printers has been updated to reduce the amount of space they need and the number of formats they support (A6R-A4). Even thick paper, with weights of up to 220 g/m², and small-format documents such as prescriptions can be easily printed on the long or short edge in A5 format. The printers can also easily handle labels, envelopes or recycled paper. They feature a maximum paper capacity of either 2,000 or 2,850 sheets, meaning you don't have to spend your time adding paper.

GOOD FOR THE ENVIRONMENT: Resource conservation takes centre stage at our company and has done so for some time. We have further increased the percentage of recyclable plastic we use in the new systems. Thanks to the new toner technology, our systems also use less energy because the melting temperature of the toner has been significantly reduced and because the heating elements require less of it to carry out printing. And because of the integrated toner locking**, the toner cannot be replaced unless the cartridge is empty, allowing you to boost your productivity and protect the environment in the process.

SIMPLY INGENIOUS: The HyPAS™ interface* that has been integrated into a printer for the first time makes it incredibly easy to add software solutions such as follow-me printing or Cloud Print to your system according to your requirements. The free Mobile Print App is available for mobile printing, while Apple AirPrint* and optional Wi-Fi integration are also supported. The LCD display*, which can be tilted by 90 degrees, and 4.3-inch touch panel** make sure you always have a full overview.

THOROUGHLY PROTECTED: Data security is essential in the modern office of today. Whether you are talking about secure, contactless authentication via the optional card reader and chip on the system or compliance with new security protocols (such as TLS 1.3) during data transfers, you and your data are on the absolute safe side with our new high-performance printers. In addition, the integrated Data Security Kit guarantees that data on your hard drive can be permanently erased and overwritten in accordance with international security standards.

Functions	Duplex, job reservation, job programs, N-up-printing, login by function, 100 management codes, encryption/overwriting of hard disk data (Data Security Kit) in combination with optional SSD memory, Secure Boot ³ , Runtime Integrity Check ³ , Simple Certificate Enrollment Protocol (SCEP), TLS 1.3, OCSP, CRL ⁴ , SIEM-Support etc.	Network protocols	TCP/IP, Net BEUI		
		Operating systems	Windows 8/8.1/10/11, Server 2012 R2/2016/2019/2022, Linux, Chrome OS, Mac ex OS 10.14		
		Emulations	PCL6 (PCL 5c, XL), KPDL 3 (PostScript 3 compatible), PRESCRIBE IIC, PDF 1.7, XPS		
		Functions	Colour Optimiser, USB direct printing, PDF/XPS direct printing, printing of e-mails, private printing, quiet mode (half speed mode), barcode printing, ECO-print, Mobile Print (Android/iOS), Apple AirPrint, Universal print, Wi-Fi ²		

- ¹ depending on operating status
- ² optional
- ³ UG-35 Trusted Platform Modul necessary
- ⁴ optional SD card or SSD required (CRL not available for P-C3563DN)
- ⁵ country specific

To enable HyPAS functionality additional memory is required. Specifications subject to change without notice. Image shows machine with optional accessories.

About UTAX: UTAX is a registered trademark of the TA Triumph-Adler GmbH. The Hamburg-based company specializes in the sale of high-quality printing and copying systems. The broad product portfolio includes hardware as well as software applications. In addition to copying, printing and multifunctional systems (MFP) for the office workplace, UTAX supplies customized IT solutions and services as well as comprehensive consulting for efficient document processes in companies. In Germany, the UTAX brand is distributed through a network of over 200 authorized dealers. Internationally, the company operates in over 40 countries in the EMEA region.
